	up to 20W Halogen	3000K – Pure White 130Lm	18125

^{*} Ideal for side mount path, deck/step, wall wash fixtures and more.

Stated lumens are for bare lamp only. Using lamp in enclosed fixtures can result in up to 30-40% loss in lumen output based on test data.

All lamps are listed or certified by UL, ETL, and/or CSA to the appropriate ANSI/standard for both the United States and Canada and have tested for FCC compliance, assuring they won't interfere with other home electronic devices. So, you don't have to worry about inadvertent interference.

^{*} Multiply fixture VA by the number of fixtures used to determine size of transformer.
