

peak outdoor

DESCRIPTION

With a minimalist modern approach in mind, the Neutrino compact outdoor sconce light directs the LED light down, minimizing wasted light and glare. Clean lines and a sloped roofline accentuate but don't detract from architectural surroundings. The dimmable Neutrino is available in two finishes, either Graphite or Bronze. Its dimensions are 6" high, 4.5" wide with a 4" extension, making it ADA compliant. Neutrino would look fantastic as the front door light and back of a home as a porch light as well as an entryway light to a hotel, restaurant or bar. The Neutrino is small enough to be used as indoor hallway lights or media room lights. Wet-rated. Includes (1) 13.2 watt 295 delivered lumens Warm Color Dimming 90 CRI 3000K-2200K LED module. 120v
